

# FRULOI

Late cycle

## Ryegrass and cereals based forage

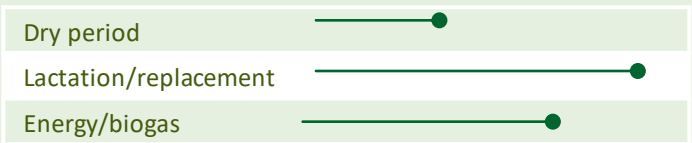

- Forage based of late-cycle soft wheat ryegrass.

- The use of late varieties allows mowing late in the season, when climatic conditions are more favorable for haymaking in the field

### USAGE TYPES

### INTENDED USES

### COMPOSITION

Late-cycle wheat  
Medium-late cycle ryegrass

### SEEDING RATE

190 –200 kg/ha

### SOWING PERIOD

Autumn
