

LOVIC

Medium-early cycle

Italian ryegrass based forage

- Simple mix based on Italian ryegrass
- The addition of vetch improves the protein content.
- The quality of the fiber and the protein content are enhanced when mowed before the ryegrass flowering.

USAGE TYPES

Hay	<input type="range" value="3"/>
Pasture	<input type="range" value="2"/>
Green forage	<input type="range" value="4"/>
Pre-withered	<input type="range" value="5"/>
Silage*	<input type="range" value="3"/>

* pre-withering advised

INTENDED USES

Dry period	<input type="range" value="2"/>
Lactation/replacement	<input type="range" value="5"/>
Energy/Biogas	<input type="range" value="2"/>

SEEDING RATE

100 - 110 kg/ha

SOWING PERIOD

Autumn

COMPOSITION

Lolium italicum tetrap. w.w
Common vetch
