

SUNFLOWER

RGT **CAPITOLL**

VERY EARLY CYCLE

HIGH OLEIC

Very early high oleic

- Very early high oleic hybrid

- Very short plant with good diseases profile

#### QUALITATIVE CHARACTERISTICS

|                |          |
|----------------|----------|
| Oil (%)        | 47 - 48% |
| Oleic acid (%) | 87 - 88% |

|              |  |
|--------------|--|
| Packaging:   | 75.000 seeds                           |
| Seeding rate | 7 seeds/m <sup>2</sup> (cm 75 x cm 19) |

#### MORPHOPHYSIOLOGICAL CHARACTERS

|                 |            |
|-----------------|------------|
| Flowering cycle | Very early |
| Maturity cycle  | Very early |
| Plant height    | Short      |
| Seed color      | Black      |

#### RESISTANCES

|              |     |
|--------------|-----|
| Mildew       | RM7 |
| Phomopsis    | R   |
| Sclerotinia  | MR  |
| Verticillium | R   |
| Lodging      | R   |
