

SUNFLOWER

# LID6038H CLP

MEDIUM CYCLE

HIGH OLEIC

Alte rese in acheni con  
elevato contenuto  
in olio

NEW

High oleic with stable yield in all conditions

Excellent agronomics and health

## QUALITATIVE CHARACTERISTICS

Oil (%)	46 - 47%
Oleic acid (%)	90 - 91%

Packaging: **75.000 seeds**  
Seeding rate: **6,5 seeds/m<sup>2</sup> (cm 75 x cm 20,5)**

## MORPHOPHYSIOLOGICAL TRAITS

Flowering cycle	Medium - Early
Maturity cycle	Medium
Plant height	Medium - high
Seed color	Black

## RESISTANCES

Mildew	RM9
Phomopsis	R
Sclerotinia	R
Verticillium	R
Lodging	R

LID6038H CLP, a new high-oleic, medium-early crop, guarantees consistent performance under a variety of growing conditions. This hybrid combines the efficiency of Clearfield® Plus technology with strong disease resistance, resulting in healthier and more resilient crops, ensuring a reliable harvest season after season.
